Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5-7, 13, 14 and 17-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Pugh US Patent 5,933,005.

Pugh discloses a device for measuring the relative angular position of first and second bodies with respect to a point comprising a first measuring element and a second measuring element. The first measuring element comprises a first inclination sensor having a first detection axis and the second measuring element comprises a second inclination sensor having a second detection axis (see col. 3, lines 44-61; col. 4, lines 1-47 and col. 7, lines 42-52).

Allowable Subject Matter

Claims 8-12 are allowed.

Claims 3, 4, 15 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
